INSPIRATION

“JAGUAR”

The JAGUAR (*Panthera onca*), is a specie of carnivorous mammal of the family Felidae that lives in the American continent, from the South of the United States to the North of Argentina.

In ancient civilizations of Central and South America, the jaguar is considered a symbol of **strength.**

IT IS TERRITORIAL, GOOD CLIMBER AND GOOD SWIMMER.

By approaching and ambushing, on the ground or in the trees and is the only large feline that kills many of its prey with only a strong bite in the skull.

It is a solitary species, its activities are concentrated in the twilight and dusk.

“Pray the **Legend....**”

**There is a legend associated with the jaguar that
attributes to him the title of**

Guardian of the Forest

It is he who renews and transforms the life of the rainforest.

In the universe and in life, everything is movement, nothing is fixed ...

The Universe flows ...

Chaos and order, expansion and contraction, are natural cycles of life.

**The cat's indomitable vibration helps identify what needs to die
inside of us - so rebirth can take a leap into life ...**

OUR
